

## Imprint Equine Foot Care

### How to Measure Your Horses Foot for the Correct Imprint Shoe Size

To assess which size of Imprint shoe is going to be the best fit for your horse, your farrier will measure across the widest part of the foot, and from toe to heel.

If measuring before trimming then an allowance should be made for the amount of horn to be removed, especially when there's a fair amount to come off. The shape of the foot will determine whether an Oval, Round or Hind shoe is the best match for the foot.

#### Front Foot

Measure across the widest part of each front foot for the shoe width, and from toe to heel for the shoe length.

#### Hind Foot

Measure across the widest part of each hind foot for the shoe width, from toe to heel for the shoe length.

Imprint horseshoes are available in a range of types, shapes and sizes.

Imprint First shoes are manufactured in Oval and Round Front shoe shapes, hinds are also available. Imprint Plus shoes come in an Oval shape and in 6 sizes. Imprint Sport shoes, Fronts and Hinds are available with and without stud holes. For more details please see our websites.
